

TITLE

5        BLENDS OF POLY(ALPHA-METHYLENE-GAMMA-METHYL-GAMMA-  
         BUTYROLACTONE-co-GLYCIDYL METHACRYLATE) AND  
         POLYPHENYLENE SULFIDE POLYMER, ARTICLES THEREFROM,  
         AND PREPARATION THEREOF

ABSTRACT

10        This invention discloses blends of copolymeric compositions with  
         repeat units of glycidyl methacrylate and alpha-methylene-gamma-methyl-  
         gamma-butyrolactone with polyphenylene sulfide (PPS). This invention  
         further discloses a process for improving mechanical properties of PPS.
